Multi-million dollar projects for Maryb'h

A Sydney Rocks-style development is on the cards for the Heritage City. With building on luxury units and a \$30 million marina starting this week, property developer Ron Blyth said a major project, with the potential to become Maryborough's equivalent to the

Rocks area in Sydney, was also on the drawing board. Details however, are under wraps until the concepts are confirmed. These and other multi-million dollar projects are set to change the face of Maryborough.
