Luxury apartment living comes to Maryborough

Riverview on March to commence soon

Stylish apartment living is coming to Maryborough. A boutique development of only 6 apartments, Riverview on March, is soon to commence construction.

Riverview on March will offer luxurious, contemporary riverfront living in the heart of Maryborough.

Designed by respected firm Architectus, Riverview on March pays close attention to quality and detail.

All apartments offer oversized rooms, high ceilings and 3 large bedrooms.

Open plan living blends naturally with generously proportioned balconies that offer unobstructed river views.

While clever placement of windows and multi-aspect design helps bring the outside

in and ensures abundant natural light.

Quality fittings that are practical and convenient are included as standard.

From Smeg kitchen appliances, to luxurious pure new wool carpets in the bedrooms and custom made bathroom vanities.

Neutral colour palettes have also been used throughout to achieve a sense of timeless elegance.

These tones have been carefully selected so that owners can easily bring their own style and personality to their new home.

Ron Blyth from developer Belela said "We have designed apartments that emphasise lifestyle and space to relax.

You'll find luxury, but also a priceless location on the river."

Riverview on March

- Boutique development
- 6 luxurious oversized apartments
- Stunning, unobstructed river views
- Maryborough's premium address
